Introduction

Arker: The Legend of Ohm

Arker: The Legend of Ohm is a groundbreaking **blockchain metaverse game** that offers players a fully **immersive and interactive experience.**

Introduction

Arker: The Legend of Ohm

With 2D, 3D, and VR capabilities, and the ability to play across devices ranging from mobile phones to VR headsets, **Arker is set to revolutionize the way we play games.**

Progress

Partners and collaborations

Since our seed phase, we have made significant progress in developing and launching Arker: The Legend of Ohm.

Some of our key achievements include partnering with industry leaders such as Nexo and Habbo, and being listed on the Kucoin exchange.

We are constantly striving to improve and expand the game, and we are excited to share our progress with you.

Growth Phase

Game contents

In order to continue growing and expanding the game, we need to achieve mass adoption of the Arker metaverse.

To do this, we have put in place a range of strategies, including the creation of more content, marketing efforts, and partnerships.

We believe that by attracting a large and diverse player base, we can create a truly unique and immersive gaming experience.

User Growth

Game data

Since our launch, we have seen a steady increase in the number of registered users on the Arker platform.

We have made a concerted effort to retain and engage our current players, while also attracting new ones through marketing efforts and partnerships.

We believe that a strong and active player base is key to the success of any game, and we are committed to building a thriving community.

Nintendo Switch

Blockchain game

NINTENDO
SWITCH™

We are proud to be playable on the Nintendo Switch soon!

This is a significant achievement, as it allows us to reach a wider audience of gamers and makes our game more accessible to players.

We believe that being able to play Arker on a wide range of devices is a key factor in our success.

Land Ownership

Areas for investors

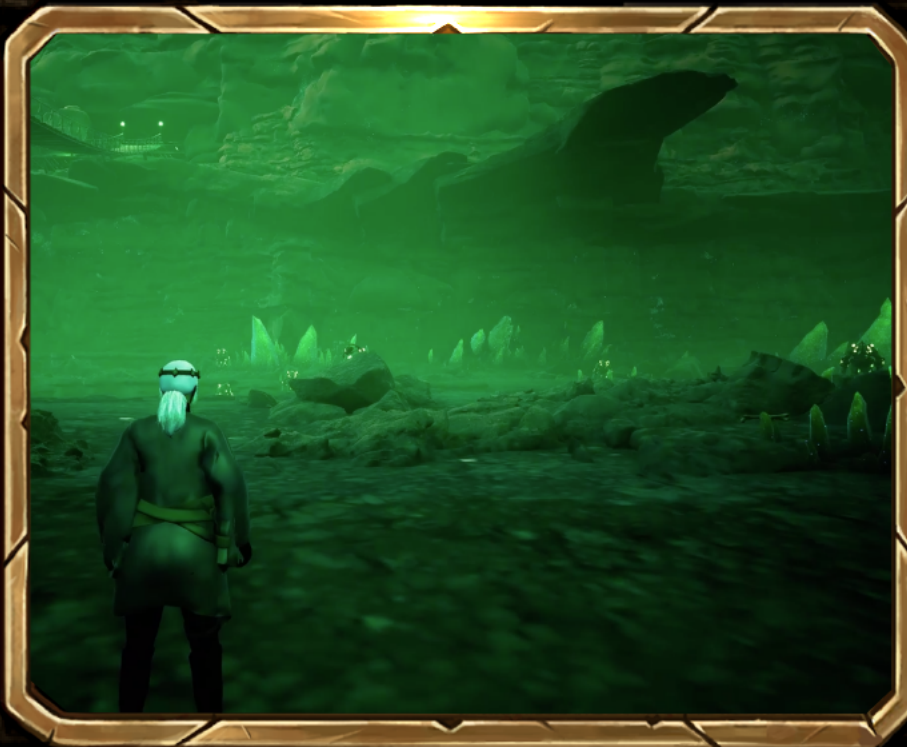

In the Arker metaverse, players have the opportunity to purchase and own virtual "lands" that are located within the game.

These lands are available to both private and public investors, and each type of investor has the opportunity to choose lands that suit their interests.

For example, private investors may choose lands that offer passive income, while public investors may prefer lands that offer in-game benefits. Additionally, private investors have the option to customize their lands prior to creation, which allows them to promote their brand within the game.

METAVVERSE

LANDS

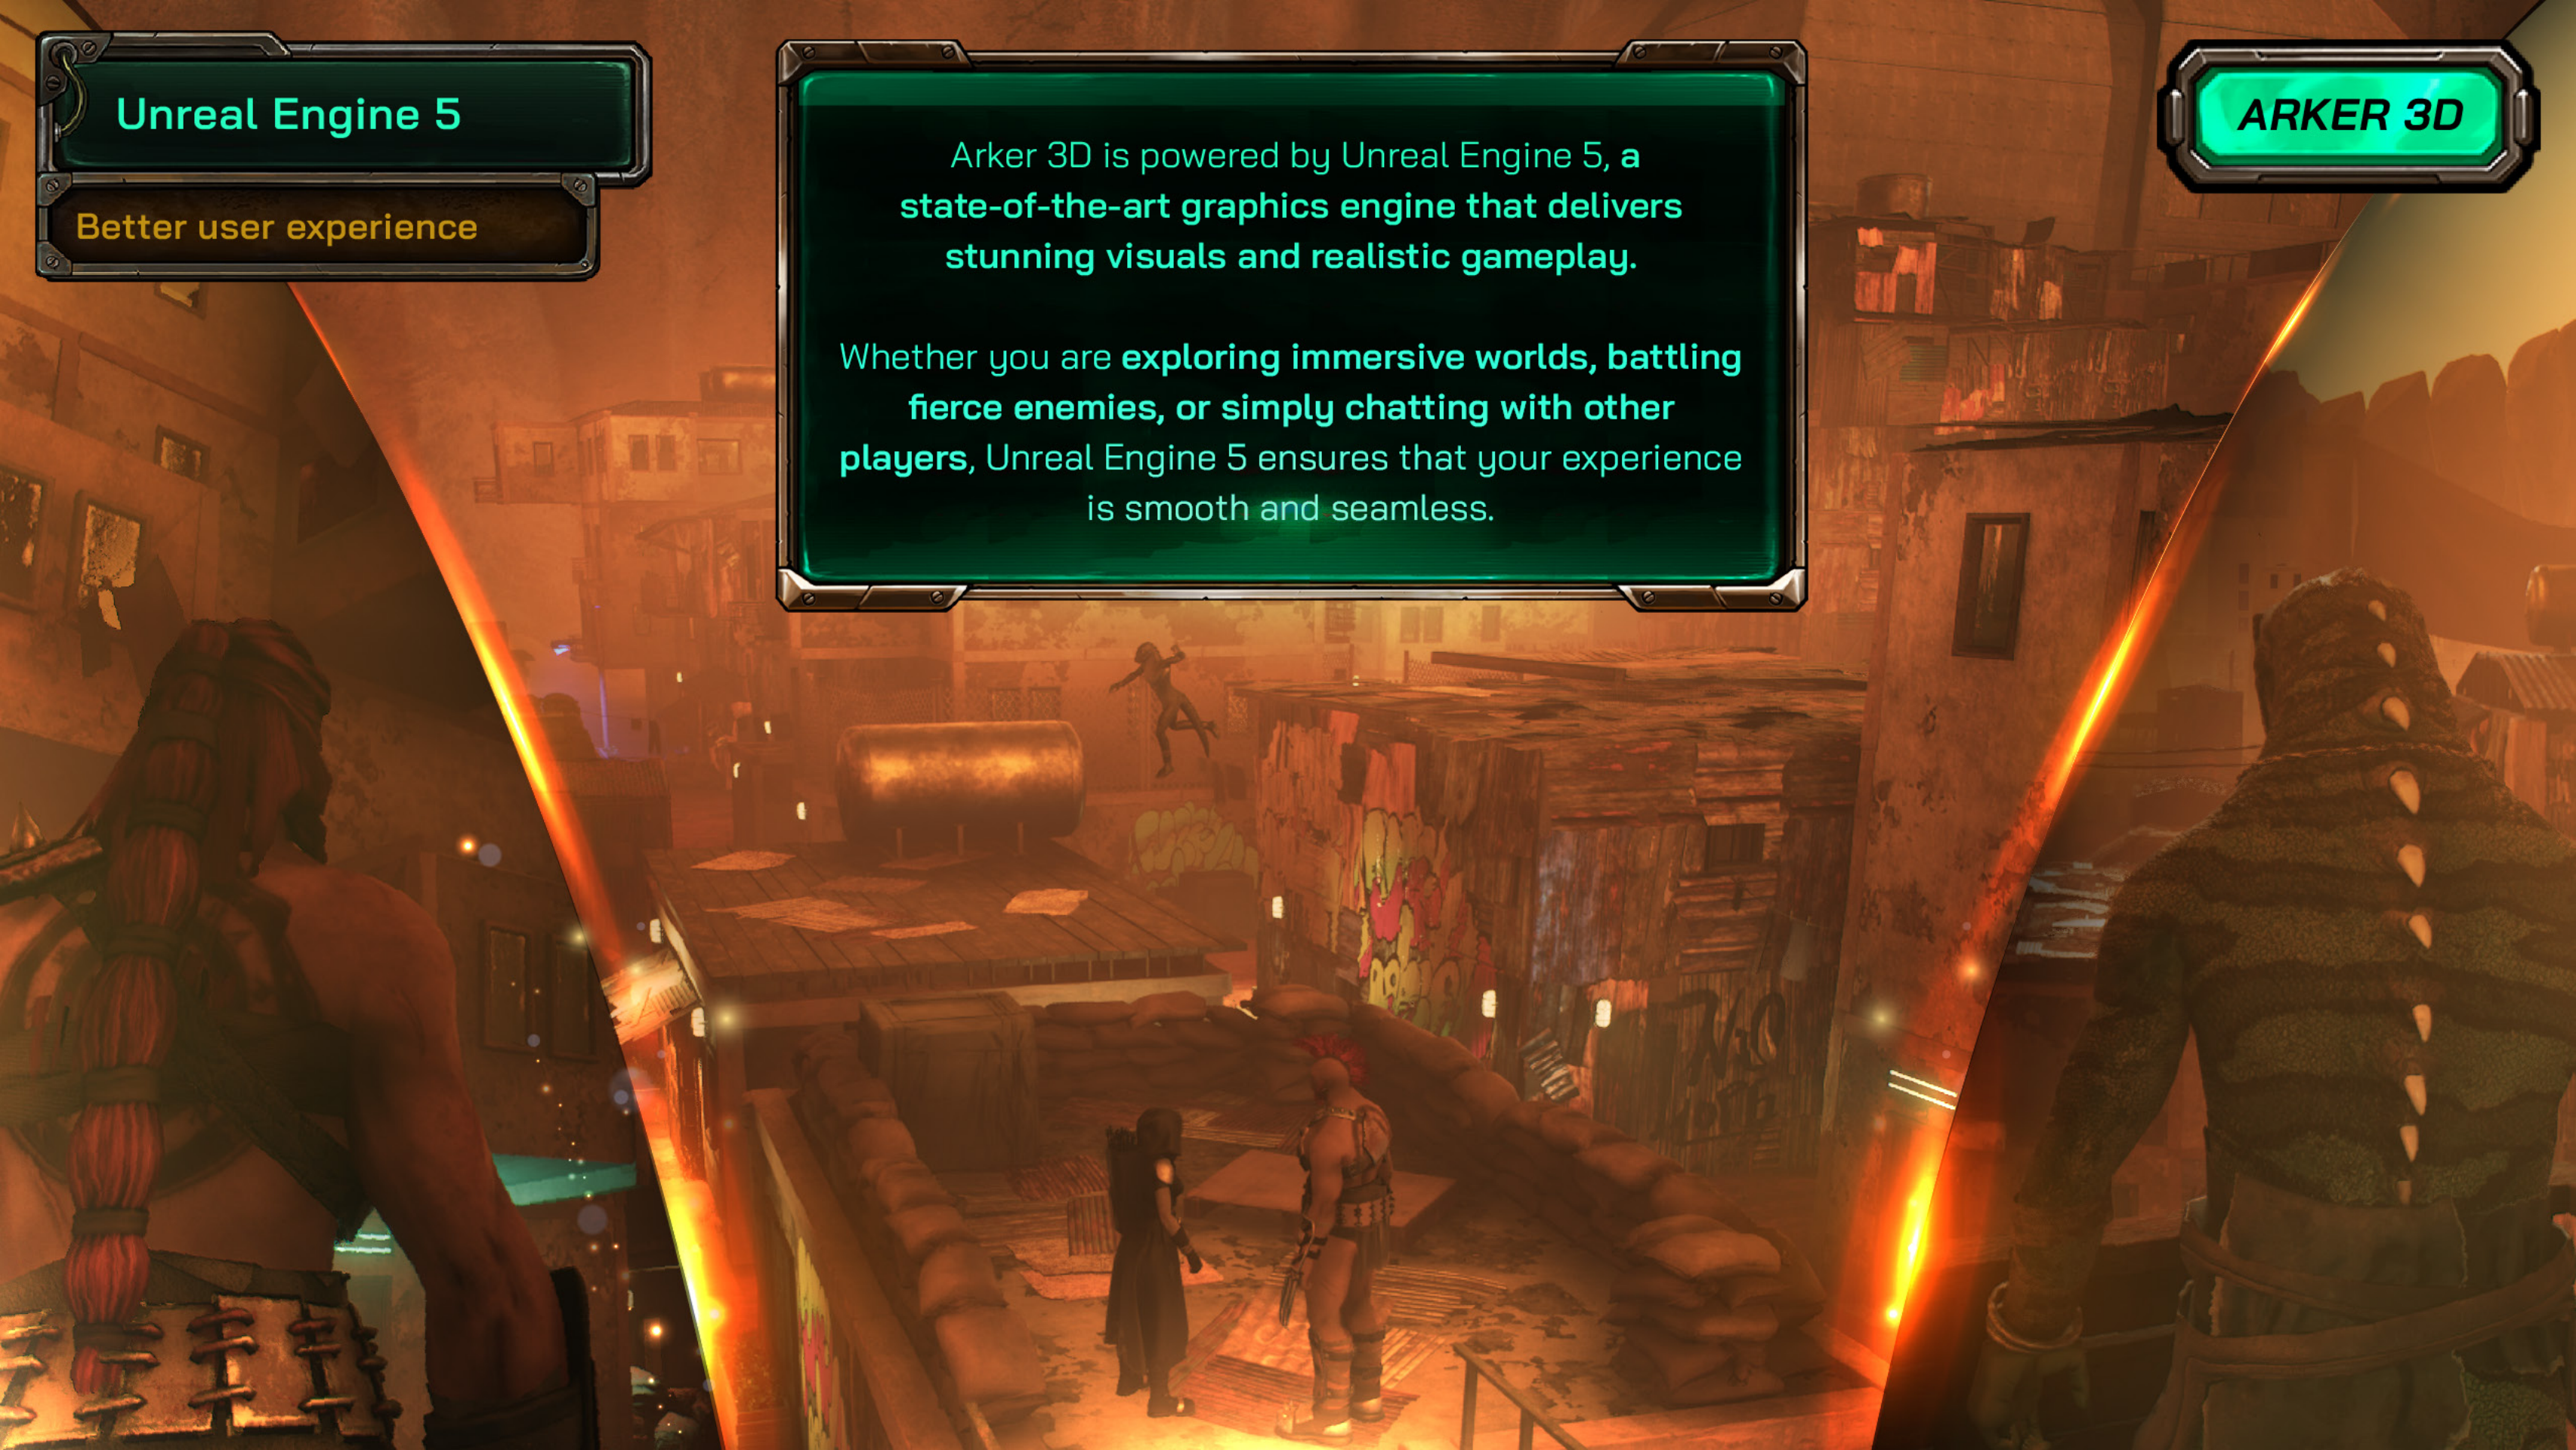

Unreal Engine 5

Better user experience

ARKER 3D

Arker 3D is powered by Unreal Engine 5, a state-of-the-art graphics engine that delivers stunning visuals and realistic gameplay.

Whether you are exploring immersive worlds, battling fierce enemies, or simply chatting with other players, Unreal Engine 5 ensures that your experience is smooth and seamless.

Cross-Platform Play

Mobile and PC users

One of the key features of Arker is the ability to play cross-platform games between mobile and PC users.

This means that players can engage with each other regardless of the device they are using, creating a truly seamless gaming experience.

We believe that this is a key factor in our success, as it allows players to play with friends and family regardless of their devices or experience with blockchain.

Cross-platform games

Investors and Partners

Notable relationships

in 2021

The Arker project completed a fundraising round, **reaching our hardcap of \$2.6 million.**

This achievement is a testament to the strong demand and the potential it holds.

Our marketing efforts, **led by Market Across**, have been effective in raising interest in the Arker project, **through targeted campaigns on platforms such as Reddit and SEO techniques.**

We believe that these partnerships and relationships are crucial to our success, and we are **always looking for new opportunities to collaborate with industry leaders.**

In-Game Features

Game experience and features

NFTs in game

New characters

In order to create a truly immersive and engaging gaming experience, we are constantly developing new in-game features and updates.

One example is the development of dungeons, which allow players to team up with their companions and battle fierce enemies in a World of Warcraft-style experience.

Additionally, we are creating different biomes and populations within the game, which will allow players to explore and interact with a variety of different environments and cultures.

Store and Market

Buy or sell your items

Arker's income comes from different sources:

- **NFT Market:** NFT items that are sold on our marketplace or in opensea, we get a fee on each transaction.
- **Breeding:** New comers need pets, players can pay to breed their nfts, the majority of that amount goes to Arker.
- **PVP:** To play versus another user you will need a PVP ticket, we get a % on each ticket sale.
- **Tournaments:** Arker gets a % of the tournament's pot.

"Alive" Cities

Gaming experience

Within the Arker metaverse, **players will be able to visit "alive" cities** that are filled with a variety of activities and opportunities for socialization.

ARKER 3D

These cities will feature **mini-games, customization options for characters, and the chance to interact with other players.**

We believe that these cities will be a key factor in creatin a **truly immersive and interactive gaming experience**

Funding and Next Steps

Be part of the world Ohm

In order to continue growing and expanding the Arker game, we need your support.

We are seeking additional funding to help us bring the metaverse to full release and continue developing new in-game features and updates.

If you are interested in learning more about the game and our plans for the future, we would be happy to schedule a phone session to show you everything that we have developed so far and answer any questions you may have.
